

IN THE ABSTRACT

Please amend the Abstract as follows:

M A cathode-ray tube (CRT) assembly of a projection television ~~is provided. The~~ CRT ~~assembly~~ includes a CRT for creating an image, a lens for magnifying the image created in the CRT and projecting the image onto a screen, and a coupler[[,]] disposed between the CRT and the lens, ~~within which a~~ A cooling liquid receptacle is provided within the coupler, and is filled with a cooling liquid, is provided, For that purpose, a cooling liquid pouring inlet is disposed on one side of the coupler [[and]] for pouring the cooling liquid into the cooling liquid receptacle, and an oilpack is connected to the cooling liquid receptacle so that a portion of the cooling liquid is contained therein when the cooling liquid ~~filled~~ in the cooling liquid receptacle expands due to heat generated by the CRT. The oilpack comprises a sealed space, a pack holder disposed between the sealed space and the cooling liquid pouring inlet, and an oilpack coupling mechanism formed on the pack holder.
